

SELVARAJ C

Web Developer | Frontend & MERN Stack Developer | Problem Solver

Phone: +91 6374821351 | Email: Selvarajcdev@gmail.com | Tamil Nadu, India

SUMMARY

Motivated Web Developer with hands-on experience across the MERN stack and live client projects. Comfortable working across the front-end and back-end, testing and debugging APIs, and collaborating closely with development teams. Enjoys solving real-world problems through clean, responsive, and user-friendly web applications, and thrives under tight, fast-paced deadlines.

PROJECTS

Doctor Appointment Booking System — MERN Stack

- Built a complete appointment management system with booking, rescheduling, and cancelling features.
- Tech used: HTML, CSS, JavaScript, Bootstrap, React.js, Node.js, Express.js, MongoDB.

Weather App — React.js

- Developed a weather search application using API integration for real-time weather data.

Resume Builder — React.js

- Created an interactive resume generator with dynamic, input-based templates.

EXPERIENCE

Web Development Intern / On-site

Carrezza Global Solutions

Apr 2026 – Jul 2026 | Perundurai, Tamil Nadu, India

I completed a 3-month onsite internship at Carrezza Global Solutions, where I worked on live, client-facing web development projects with the in-house development team. I gained hands-on experience across the full stack, contributing to front-end interfaces and back-end functionality on real production tasks. I used Postman to build and inspect requests, verify response payloads and status codes, and troubleshoot request/response (req/res) issues during integration. I followed coding best practices, collaborated closely with mentors and teammates, and adapted quickly to new requirements — strengthening my communication, teamwork, and confidence in handling real-world projects.

Web Development Intern / On-site

IDM Techpark

May 2024 – Jun 2024 | Erode, Tamil Nadu, India

- Worked on frontend development tasks, UI layouts, and responsive design implementations.

Web Development Bootcamp

IDM Techpark

Dec 2024 | Erode, Tamil Nadu, India

- Gained hands-on experience in modern web development workflows.

SKILLS

Frontend: HTML, CSS, JavaScript, Bootstrap, React.js

Backend: Node.js, Express.js

Database: MongoDB

Programming: Python (basics), JavaScript

Tools: Git, Postman (REST API req/res testing)

Core Skills: Responsive Design, API Interaction, Web Development

EDUCATION

B.Sc Computer Science

Sengunthar Arts and Science College
Aug 2022 – May 2025 | Thiruchengode, India

HSC

Government Boys Hr. Sec. School
Jun 2021 – May 2022 | Pallipalayam, India

SSLC

Government Boys Hr. Sec. School
Jun 2019 – May 2020 | Pallipalayam, India

CERTIFICATIONS

- MERN Stack Development — IDM Tech Institutions (Jan – Jun 2025)
- Communication & Personal Dynamics — Magic Bus India Foundation (Jan 2025)
- Problem Solving & Process Control — Magic Bus India Foundation (Jan 2025)

SEMINARS

- Technological Innovations & ICT — ICT Academy, National Level Seminar (Jan 2025)
